Software: (*proficient*): PHP, Laravel, Python, Django (*familiar*): JavaScript, React, SQL, Git, Stripe, HTML/CSS

EMPLOYMENT

Personal Website: ananthony.github.io (for additional information)

LimPark LLC (*LimPark.co*), Frontend Developer

Jan 2020 – Present

Leveraging knowledge: in Full Stack Web development, UserFrosting (PHP), HTML/CSS, JavaScript, PostgreSQL, React, Git, Photoshop, and debugging using Chrome Developer Tools.

- Developed several pages of the current live site in UserFrosting (PHP).
- Developed a Tax Savings Estimator component for the landing page.
- Currently in development of the next iteration of the landing site in React.

Eighty8 Ventures, Web Developer Intern

May 2018 – Sept 2019

Leveraged knowledge: in Full Stack Web Development, design patterns, Test-driven and Agile development, Laravel (PHP), PHPUnit, MariaDB (SQL), Stripe, Git, and React.

Miistro (*miistro.com*)

- Designed the database schema and developed RESTful APIs and backend services for music lesson scheduling/management, account management, and automated billing.
- Wrote unit and integration tests for all code and fixed live issues and bugs.
- Currently serving over 500 users.

Wing Deals (*wingdeals.com*)

- Assisted in development of the search engine, implemented Stripe billing, fixed bugs and styling in the frontend.

Laravel Project Base Generator

- Created a backend code generator that generates a CRUD API given a YAML file modelling the desired project.

Chatime, Tea-rista/Shift Leader

May 2016 – May 2018

- Handled all aspects of the store including customer service, making drinks, handling cash, stocking, and training.

Uber, Greenlight Expert

July 2017 – April 2018

- Operated London's Greenlight Hub, providing in-person support for driver partners.

SOFTWARE PROJECTS

Project moo

- Created a web app to connect people with healthcare providers and to streamline appointment booking.
- Includes features such as full account management, public provider profiles and searchable listings, appointment booking based on availability, intake form customization, a responsive UI, and more.
- Utilized: Django, HTML/CSS, JavaScript, PostgreSQL, AWS EC2, Git, Unicorn, Nginx, Photoshop

INTERESTS

I love sabre fencing, badminton, snowboarding, rock-climbing, and photography!
